

Twining Workshop

exploring plant fibres and basketry with Anna Corbett

Bolton Village Hall, Northumberland, NE66 2EE

Saturday 15th & Sunday 16th February 2025, 10am to 4pm both days

cost £175 / £155

Twining with plant fibres consists of two pieces of material (the 'weavers') moving around, and crossing over between, some unmoving elements (stakes, spokes, uprights). If this was on a loom they would be the equivalent of the warp (uprights) and weft (weavers). The weavers move in a spiral around the uprights and at a certain point a piece of magic takes place and the shape turns from a square into a circle.

A combination of strokes in a specific sequence creates the finished piece. There are many questions and options to consider: direction of travel, choice of material, how to begin, what sort of pattern, with or without a handle?

Come and take part in this 2 day workshop and explore your own answers to some of these questions, which will be in our fingers.
